Re: Utility Patent Application Serial No. 10/517,090
National Phase of PCT/US03/18004
MULTILINE TRANSMISSION IN COMMUNICATION SYSTEMS
Inventors: Michail Tsatsanis, Mark A. Erickson, Sunil Shah
Our Ref.: VOY-023US

Dear Mr. Tsatsanis:

Thank you for your letter of June 22, 2005. We have carefully reviewed your letter and studied the material that you enclosed. As a result, we have decided that it is desirable to amend the claims to clarify the subject matter being pursued, and accordingly, a preliminary amendment is enclosed which we intend to file along with any formal papers you may execute for this application. In addition, we intend to file with the amendment and papers an Information Disclosure Statement (IDS) in which we identify for the examiner the references that you have brought to our attention. A complete copy of the patent application, including the specification, claims and drawings, along with the first preliminary amendment, as filed, plus a copy of the preliminary amendment that will be filed setting forth the amended claims, are enclosed for your reference. We think we are entitled to the claims as amended over the prior art as represented by these references. Nonetheless, the examiner, having been provided with the identity of these references, will be in a position to determine the patentability of the claims.

The enclosures include the application as filed based on the PCT application and the two preliminary amendments. For your convenience, we are providing an "application as amended", in which we have combined the application as filed with the amendments, replacing the original pages and claims of the PCT application with the new pages and claims from the preliminary amendments. This "application as amended" contains the subject matter to which the Declaration relates that you are being asked to sign.

A Declaration and an Assignment are enclosed. After reviewing the enclosed copies of the application papers, please execute these and return them to us for filing in this application, which we will do along with the preliminary amendment of the claims and the IDS. If we do not receive the signed Declaration from you by August 20, 2005, we would proceed with this application in the absence of your signature under 37 C.F.R. §1.47, and we will file a petition as provided by that rule when an inventor refuses to sign a Declaration. But we do not believe that will be necessary, as we trust you will find the application and related papers that are enclosed acceptable and will return the signed Declaration and Assignment. If you have any further comments, we will consider them.

Please let me know if you have any questions.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Joseph R. Jordan', with a large, stylized loop at the end.
